

Questions about other stuff

Why do ~~we~~ love our animals
have such a connection to us?

396 Why are there gays and lesbians?

Let's celebrate differences!

It is just a case of sexual likes and dislikes.

Just as we are all born with different personalities, talents and preferences of what we like to do (for example, play sport, enjoy music, better at some school subjects and struggle with others), some people are born being attracted to someone of their own gender.

397 Is it good to have 2 Mums?

It is always good to have loving parents

...that's the important thing!

There are so many different kinds of families these days. Think of all your friend's families and your own. Some families have a Mum and a Dad, some have a Mum or a Dad, some have two Mums, some have two Dads... some have Nan or Auntie looking after them. The best kind though, is always where the parents love and take care of their children. Love is the most important part of being in a family.

398 Why do our animals have such a connection to us?

Because we feed them, make sure they are safe and care for them.

We are part of their pack or flock...or family.

Relationships with animals are very important to a lot of people, so much so that most of us have had a pet at some time in our lives.
